

BARCOMBE NEIGHBOURHOOD PLAN

PUBLIC ENGAGEMENT EVENT, SUNDAY 14 JANUARY 2018, 2PM & 3PM

WILDLIFE, WATER AND WOODLAND

Poster: Public invited to mark on map wild and water features including those to be enhanced/promoted in building developments

Major non-wildlife issue	Proposed Action/Response
Cumulative surface water flooding effect at Hillside. Comments largely from residents near or adjacent to development site	Flooding issues acknowledged in Draft JCS Part 2 for BA02 (Hillside) and BA03 (Bridgelands) with recommended actions

Wildlife resources	Proposed Action/Response
9 previously unmapped ponds identified in Barcombe Cross	
Widespread records for toads	
Widespread records for hedgehogs	
Potentially 2 bat roosts	
Old Railway line – Local Wildlife site; breeding area for nightingales	
House martins hot spot: Grantham Bank	
Potential swift breeding site (right at roundabout)	
Glow worms: recorded ay allotments and Hillside	
Recommendation: continue wild life surveys by using local questionnaire; develop as side-project	
Conclusion. Any development needs to maintain the status quo, i.e. provide for the movement of wild life through the village and across the wider countryside Proposed action: consider inclusion in NP Policies
